BIRD MEN TO FLY AT LOS ANGELES

The greatest aviation meet ever held will take place at Los Angeles some time in January, probably about January 13, and will last until the 13th. The great meet, which was held early in the year, has given a fillip to the bird men and the promised support has exceeded all expectations. In addition to the Wright and Curtiss men, twenty-two others have signified their intention of taking part.

M. C. Tullison, of the American Aviation Company, has the matter in hand and has been doing all the preliminary work in connection with the meeting.

PROFIT IN FOOTBALL.

BERKELEY, California, December 5.—Graduate Manager Farmer of the University of California has just announced the gate receipts of the annual intercollegiate Rugby football game played here on November 12, and all are astonished at the unprecedented amount, \$42,000. It is a record amount, not only for the annual game, but also a record gate for the state. When expenses are deducted, the student body of Stanford and California will each be about \$20,000 ahead. The profits of these annual games go to support all athletics and student activities of the two universities.

ARE NEARLY READY FOR THE CONTEST

Tickets for the great glove wallop that is to take place on next Monday night are moving off at a rapid pace. The box plan was opened this afternoon at Fitzpatrick Brothers, corner of Hotel and Union streets, and Jackson's arm got tired handing out the coupons.

The contestants in the fight to be had a last round with their sparring partners yesterday afternoon. Joe McGurn sent out ten lively rounds in good style and the way he sent the jabs home with both left and right fists was a treat to see. There is a rumor going round that he has a loop the loop pig away in a bag where nobody will be able to find it until Monday night.

At the same time there are reports flying round that the wily Jimmy has also a solid wallop put away and which he was practising up yesterday afternoon, when he went eight useful rounds. Whatever happens and whoever does get that punch in first and puts a final stopper on the event, it won't happen along until just near the finish, as both men are in good nick and fit and willing to go the whole distance.

Although Hoso is training hard and doing a good walking start every day, he did not have the good luck to win the walking race last Sunday afternoon as was reported by one of the scribes on an evening paper.

SAYS PRIZE WILL BE SHEATH KNIFE

According to an unsigned note—which really should reach the waste-paper basket—the prize for the sailing race next Sunday will be a sheath knife and not a cup. The Advertiser's informant states that the course is to be from the Myrtle Boat Club out to the spar, then to a stake boat off Waikiki, down to the bell, leaving same to starboard, then up to stake boat and down to spar; then to the finish line off Myrtle Boat Club.

In running out of the channel the yachts are to keep between the piles, but, when coming up the channel, they may cut out the posts if a trade wind is blowing. If a southerly wind is blowing, or a westerly, the yachts will keep in the channel bounds coming up the harbor, but may cut out the buoys in beating out. In rounding a stake, the overlap rule must be observed. A boat may carry all the sail she likes, but can carry no more than four men. All the above information came in an unsigned communication, and it is to be hoped that, in the future, anyone who wishes to write to the sporting writer will add their name as a guarantee of good faith.

A. A. A. HAS 34,000 NOW UNDER ITS WING

The American Automobile Association, which held its annual convention at New York on November 29, has a membership roll of approximately 34,000. Several new state associations are assured, the most recent applicants being the Idaho State Automobile Association, which includes clubs in Boise, Twin Falls, Idaho Falls and Montpelier.

Coincident with the improvement of roads is their more frequent use and A. A. A. members are keen for new territory and new scenes. The touring bureau at headquarters has a formidable task on hand to keep track of road building in the various states. Even the inveterate traveler who likes himself to Europe is beginning to appreciate his own country and is touring round it more than ever.

PETE BARON DENIES.

Pete Baron denies the statement made by John Froelicher yesterday that it was he, Baron, who wrote to Gatch and suggested a franchise with Hodel. At the time the supposed offer was made Baron had quit with the doctor and Carroll was the man who made the arrangements.

JUST ONE BIG FIRE SPOILS THE EFFECT

One big fire spoils the whole effect of Fire Chief Thurston's report to the board of supervisors for the months of September, October and November. During September the department responded to three alarms, the property loss being \$217 and the property at risk being valued at \$800, according to the insurance policies, and the liability of the insurance companies was but \$85.

During October there were six alarms, the property loss being \$14,000 and the property at risk, \$14,000. The liability of insurance companies was \$11,000. The big fire was the loss of Dr. Smith's office.

In November there were seven alarms, the property loss being \$401, property at risk, \$6250 and the insurance liability nil.
